

KLIMAK AHUs - Designed with passion and manufactured for excellence

Klimak's design team, with around four decades of experience, understands the need for high quality Air Handling Units.

The company is known in the industry for its consistency of quality and for their dedication to continuous improvement.

Klimak has supplied in excess of **TEN THOUSAND Double Spring AHUs** and **ASIs** to **Africa and Europe**. The company's products are used in a wide range of applications.

It's team is proud of their unequalled record for performance, exceeding the expectations of the project owners.

Klimak's success is based on their philosophy that each customer must be treated with the same attention to detail.

Klimak is uniquely positioned to service its customers with the following certifications:

- AHRI 430 - Klimak AHUs are AHRI(ARI) 430 Certified
- AHRI 410 - Klimak Coils are AHRI(ARI) 410 Certified
- ETL - Klimak AHUs are ETL Listed for standard ANSI/UL 1995
- EN 1886 - Mechanical Performance with T2 - TB2 Ratings
- EN 13053 - Rating and Performance of AHU Components and Sections
- H 6021 - AHUs for Hygienic Application
- ISO 9001 for Design and Production of AHUs and FCUs.

Klimak ensures that their equipment is relatively maintenance free and has an established policy of dependable service.

Klimak prides itself as a company to ensure satisfactory operation of their equipment, even beyond the warranty period.
